Md Nadid Hassan Khan -230042146
Sheikh Irtiaj Ahmed -230042130
Talha Zubayer - 230042119

Department of Computer Science and Engineering
Islamic University of Technology, Dhaka

Overview

This School Admission Management System is a console-based application for school authority and applicants for central admission system.

Applicants can put their relevant information and apply for multiple schools with a preference in a particular region.

School seats are reserved for quota such as local school, freedom fighter etc .

The Master Admin initiates lottery method and prints lottery results.

School admin panel that can view and update the respective school's info.

Applicants can save, download, recover their Form & ID.
